MAGLITE®

The Mag Philosophy

Mag Instrument is dedicated to the highest standards of integrity. We seek performance and a reputation reflecting the very best we can achieve. Each Mag Instrument flashlight represents a culmination of more than 25 years of research, development, testing and continuous state-of-the-art refinement in every precision feature.

Mag Instrument, Late 50's

We are proud to offer products of classic American design and are committed to remaining a U.S.-based manufacturer.

We believe the spirit and character of the company is most clearly defined and expressed by our founder, owner and president Anthony Maglica. Each flashlight is a result of his obsession with fine engineering, craftsmanship and his commitment to perfection. An experimental machinist by training and a manufacturing innovator by practice, Mr. Maglica has guided his company's growth from a one-man machine shop in 1955 to an enterprise that employs approximately 800 dedicated employees today. But his work does not stop there. Mr. Maglica continues his commitment to quality by continually improving upon the product that bears his name.

Mag Instrument is proud to be a leader in the current renaissance in American manufacturing. Mr. Maglica himself, a fervent believer in the importance of manufacturing in the United States, insists that the manufacture of Mag Instrument's flashlights remain U.S.-based. He has dedicated himself to proving that American products can excel in the global marketplace by using technology to continuously improve quality and reduce costs. Over the last two decades, Mr. Maglica's innovations have enabled Mag Instrument to offer consumers a consistently better value than the competition.

Strengthen American Manufacturing

Mag Instrument is the only flashlight company with significant market share that still manufacturers its entire line of flashlights in the United States. Unlike its competitors, Mag Instrument has chosen not to outsource the manufacturing of its flashlights to foreign countries in order to take advantage of cheap labor and less stringent environmental standards, which may also result in inferior quality. The outsourcing of manufacturing by other U.S. companies has caused hundreds of thousands, if not millions, of jobs in the United States to be lost. Indeed, if Mag Instrument had chosen the path of other flashlight companies, the jobs of its approximately 800 employees in Ontario, California would have been lost.

MAGLITE®

Flashlight Features & Benefits

Step 1: Unscrew flashlight head

Step 2: Place head down on table

Step 3: Set flashlight into head

Candle Mode

Mini Maglite® AA & AAA flashlights convert quickly to a free standing candle mode, for convenient, hands-free light whenever you need it!

MAGLITE®

C & D Switch

One piece construction

A patented, self-cleaning switch fights the buildup of performance-degrading deposits on the contacts. The result is an extremely durable, reliable switch.

Unique design provides battery protection

Constant battery contact

The Mag-Lite® Solitaire® flashlight features an Innovative extended key lead that allows the light beam and keys to be used together in the same direction.

Mag-Lite® Switch

All Mag-Lite® flashlights feature a high intensity fast focusing adjustable beam.

Backed by Mag Instrument's Renowned Warranty Service.

Limited lifetime warranty in the Western Hemisphere and Japan; ten-year limited warranty elsewhere. See product packaging for details.

A U.S.A. Manufacturer

All Mag® flashlights are designed, patented and manufactured in the U.S.A. May contain some imported components.

Design balanced optics and power for improved performance

Anodized inside and out for improved corrosion resistance and durability

All Mag® flashlights include a spare lamp inside the tail cap.

Water and shock resistant

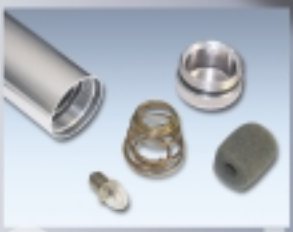
High-grade rubber seals in every size flashlight

Precision machined high-strength aluminum alloy cases

Spot to Flood

Mag-Lite® C & D Cell flashlights feature a Cam Action Fast Focusing Beam

Our exclusive cam-driven focusing system changes the beam from a wide angle flood to an intense spot with just a quick twist of the head.



All Mag® Flashlights include a spare lamp safely secured inside the tail cap.

Spare Lamp

MAGLITE®

Mag Charger™ Rechargeable Flashlight System (Ni-Cad)

FEATURES

- Easily replaced high-intensity halogen lamp
- 1/4 turn, cam action focus, spot-to-flood
- Self-cleaning rotary switch, 3 position, On, Off, and Signal (Manual, Momentary On-Off)
- Solid-state electronics
- Charger operates on A/C or D/C current
- Aluminum contact rings allow charging in any position
- Highly polished, scientifically designed, metallic reflector, withstands extreme temperatures.
- High quality tempered glass lens.
- Durable extra hard anodized finish
- Limited Lifetime Warranty in the Western Hemisphere and Japan; Ten-Year Limited Warranty Elsewhere.
- Individually serial numbered
- Flashlight designed, patented and manufactured in U.S.A. May contain some imported components. Certain accessories imported.

Without question, our ultimate lighting tool. Refined and enhanced over many years of dedicated service, the Mag Charger™ Rechargeable Flashlight System is chosen by professionals worldwide.

Mag Charger™ Rechargeable Flashlight Only (ARXX014)

Spare Halogen Lamp Included in Tail Cap

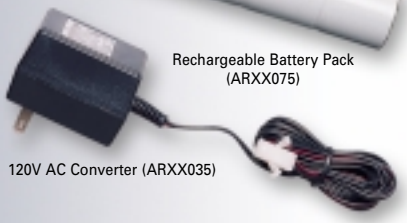
12V DC Cigarette Lighter Adapter (ARXX045)

- (2) Detachable mounting brackets included allows for multiple charging locations, quick movement from car to home
- Mounts securely in any position

Charging Cradle

Includes Two Mounting Brackets (ARXX025)

Rechargeable Battery Pack (ARXX075)



120V AC Converter (ARXX035)

System No. 1 Available In Hang Pack

33% Brighter
Substantially Increased On-Time*

Versatile *Tight spot or wide-angle flood* Patented quick-focusing "continuous cam-action" operates with a quarter-turn of the flashlight head – *Charging Cradle* mounts securely in any position with minimal space – 360° degree electrical contact rings allow charging in any position, AC or DC.

Reliable A proven performer all day, every day; all night, every night – *Self-cleaning rotary switch* 3-position; on, off, and signal (manual, momentary on-off).

Durable Sleek black finish, hard-anodizing inside and out for improved durability – Water resistant seals throughout for resistance to weather and harsh environmental conditions.

Fit and Finish Precision machined high-strength aluminum alloy case – Individually serial numbered for identification – A back-up Halogen lamp is stored in the tailcap.

Performance *Next generation optical reflector* A high-tech metallic reflector, combined with a high-quality tempered glass lens that withstands extreme temperatures and delivers superior optical performance – up to *2-Hours On-Time** High-capacity rechargeable NiCad battery provides over 1,000 hours of operational life – *Improved Halogen Lamp* 33% brighter, substantially increased on-time.

Purchase with Confidence Mag's warranty (limited lifetime warranty in Western Hemisphere and Japan, ten-year limited warranty elsewhere) is backed by Mag's international network of Warranty Service Centers.

***Due to the improved lamp, first introduced early 2002. All performance figures are approximate. Actual performance can vary due to manufacturing variations in flashlights, lamps and batteries. Note: the battery discharge rate when not in use is approximately 1% per day.**

Mag Instrument, Inc. is a proud participant in the RBRC (Rechargeable Battery Recycling Corporation). By recycling Ni-Cd rechargeable batteries, you are helping to keep Ni-Cd batteries out of the solid waste stream. When you throw away a Ni-Cd battery, it eventually ends up in a landfill or municipal incinerator. By recycling your used Ni-Cd batteries through Mag Instrument's Battery Recycling Program, you are helping to create a cleaner and safer environment for generations to come. For more information about the RBRC, visit www.rbrc.com.

MAGLITE®

D-Cell Mag-Lite® Flashlights

Every Mag-Lite® flashlight embodies a precise balance of refined optics, efficient power, durability and quality. Each Mag-Lite® D-Cell flashlight includes two high intensity White Star® Krypton Gas Lamps for enhanced brilliance and extended range.

FEATURES

- High-intensity light beam
- 1/2 turn, cam action focus, spot-to-flood
- Self-cleaning rotary switch, 3 position, On, Off, and Signal (Manual, Momentary On-Off)
- Spare lamp safely secured in the tailcap (see page 3)
- High-strength aluminum alloy cases
- O-ring sealed for water resistance
- Limited Lifetime Warranty in the Western Hemisphere and Japan; Ten-Year Limited Warranty Elsewhere.
- Individually serial numbered
- All Mag® flashlights are designed, patented and manufactured in the U.S.A. May contain some imported components.

Quality Replacement Lamps

Now with new compact packaging (1 7/8" x 4 1/4")

Xenon

Quality and dependability are the hallmarks of our flashlights. We insist upon the same quality and dependability for every lamp and accessory. Each Mag-Lite® and Mini Maglite® lamp is specifically designed to work in conjunction with the reflector to deliver enhanced performance.

* Mag-Lite® C and D-Cell Flashlight Mag-num Star® Xenon C and D-Cell Replacement Lamp (LMSA201-301-401-501-601) (2 through 6 cell) 1 Per Pack

The Ultimate Upgrade™

Move Up To Xenon!

Now Up To 100% Brighter[1]

Mag-num Star® Xenon lamps are now available for C & D Cell genuine Mag-Lite® flashlights. Upgrade today and experience the next generation in lamp technology.

[1] Measured against prior-generation (Krypton) Mag-num Star® lamps, peak beam candlepower ("PBC") of new (as of early 2003) Xenon Mag-num Star® lamp ranged from 100% higher for 2D-cell lamp to 27% higher for 6D-cell lamp, average PBC increase across the range of lamps (2D-cell through 6D-cell) being 59%. Figures are approximate because actual PBC values can vary due to manufacturing variations.

Halogen

33% Brighter

Substantially Increased On-Time**

* Mag Charger™ Rechargeable Flashlight Halogen Replacement Lamp (LR00001) 1 Per Pack

The improved Mag-Lite® Halogen lamps now come as standard "factory equipment" on the Mag Charger™ Rechargeable Flashlight System and are available separately. Upgrade today and experience the next generation in lamp technology.

** Due to the improved lamp, first introduced early 2002. All performance figures are approximate. Actual performance can vary due to manufacturing variations in flashlights, lamps and batteries.

* Enlarged to show detail

* Mag-Lite® C and D-Cell Flashlight White Star® Krypton C and D-Cell Replacement Lamp (LWSA201-301-401-501-601) (2 through 6 cell) 2 Per Pack

Krypton

White Star® Replacement Lamps Now Up To 69% Brighter[2]

White Star® Krypton lamps are installed as "original equipment" on all C & D cell genuine Mag-Lite® flashlights. Upgrade your existing flashlight today and experience the next generation in White Star® lamp technology.

[2] Measured against prior-generation White Star® lamps, peak beam candlepower ("PBC") of new (as of early 2003) White Star® lamp ranged from 69% higher for 3D-cell lamp to 20% higher for 6C-cell lamp, average PBC increase across the range of lamps (2-cell and 6-cell) being 48%. Figures are approximate because actual PBC values can vary due to manufacturing variations.

2002 U.S. Navy photo by Lt. Troy Wilcox

Mag® Night Vision Green (NVG) Lenses block Infra-Red light while transmitting visible light. **Mag® Infra-Red Lenses** block 99-100% of the visible light from our flashlights allowing for a maximum of Infra-Red output while remaining extremely covert. These lenses tremendously improve the image received by night vision goggles, Starlight, Infra-Red and night vision scopes without showing your light source.

MAGLITE®

Premiums, Incentives and Corporate Gifts

Mag-Lite® Flashlights make "brilliant" corporate gifts. Thousands of organizations all over the world have discovered that our high perceived value and reputation for quality and design produce exceptional results.

Our customizing capabilities allow your company name, logo, or message to become a permanent addition to any Mag-Lite® Flashlight. Your artwork can be duplicated precisely with our fully computerized laser engraving process.

TOGETHERWE PREPARE

American Red Cross

Together, we can save a life

The American Red Cross is partnering with Mag Instrument to build awareness and support for the organization's Together We Prepare initiative.

A new nationwide campaign to help Americans prepare for traditional disasters such as house fires or hurricanes or emerging new threats, the Together We Prepare initiative challenges people to take five proactive steps to help them make their families, schools, neighborhoods and workplaces safer. The five simple steps include: make a plan, build a kit, get trained, volunteer and give blood. The partnership is focusing on the second step, build a kit, educating consumers on what to include in a disaster supplies kit. When evacuating or sheltering in place, a disaster supplies kit can save lives. One important component of a disaster supplies kit is a flashlight.

5 ACTIONS FOR EMERGENCY PREPAREDNESS

1. MAKE A PLAN
2. BUILD A KIT
3. GET TRAINED
4. VOLUNTEER
5. GIVE BLOOD

Mag Instrument is a proud financial sponsor of the American Red Cross "Together We Prepare™" Initiative. Use of these names is by permission but implies no product endorsement. Learn more about the Initiative at **www.redcross.org** or by calling **800-797-8022**.

National Law Enforcement Officers Memorial

The National Law Enforcement Officers Memorial was established in 1991 in order to honor fallen heroes. Mag was one of three original corporate sponsors and contributed $50,000 to the memorial fund. The memorial is located in Judiciary Square in Washington D.C. and was built and dedicated to the nation's law enforcement officers who have died in the line of duty.

Mag has supplemented its initial commitment over the last ten years in order to help insure that the men and women who have laid down their lives for our protection will never be forgotten.

National Fallen Firefighters Foundation

The United States Congress created the National Fallen Firefighters Foundation to lead a nationwide effort to remember America's fallen firefighters through a variety of activities. Since 1992, the tax-exempt, nonprofit foundation has developed and expanded programs to honor our fallen fire heroes and assist their families and coworkers.

Mag continues its tradition of philanthropy by donating $25,000 to the National Fallen Firefighters Foundation (NFFF). The donated funds allow the survivors of fallen heroes to participate in such meaningful events as the Foundation's 2002 National Memorial Weekend in Washington, D.C.

Endorsed by

OUTFITTERS ASSOCIATION OF AMERICA

The Outfitters Association of America was designed to create a global organization of outfitters who are committed to providing a high quality outdoor experience through the use of natural resources while promoting responsible outdoor education. O.A.O.A. provides consumers with a source of dependable, trustworthy information on the top outfitters and guides in the world.

The new sponsorship relationship between Mag Instrument, Inc. and the Outfitters Association of America showcases a very proud commitment to the Outfitters and Guides who use our products. Mag-Lite®…The Professional Flashlight®.
